DIGITAL GREEN LANE

Your cargo handover, smooth & efficient

What is Digital Green Lane?

A **fully digital landside process** to create a seamless **delivery** and **pick-up** procedure between **forwarders** and **ground handlers**.

Goals

- To fully implement the Digital Green Lane related applications
- To come to a standardized digital delivery and pick up process
- To be the first digitized air cargo community in the world

Digital Desk **App**

Slot Booking **App**

Acceptance and Delivery **App**

Freight Management **App**
